Brand brochure

BRAND BROCHURE

National Portable
Storage Association

The beginning

The sea land container is the most important invention of the 20th century. It has enabled international trade to intensify in an unimaginable manner and is one of the major factors contributing to globalization.

But its history does not end in a coming and going from one point of the planet to another as it delivers the immense majority of products that we use on a daily basis (food, clothes, technological devices and machinery, amongst others).

THERE ARE MANY MORE
USES FOR THE SEA LAND
CONTAINER THAN JUST
THOSE FOR WHICH IT
WAS INVENTED.

STRUCTURE

ROBUST

TRANSPORTABLE

SUSTAINABLE

It has a huge range of alternative uses and habitable or static storage solutions

Our MISSION

We provide shipping container solutions that connect needs with opportunities, transforming storage and logistics challenges into practical outcomes that drive success for everyone who chooses us

Our Vission

To be the global leader in container solutions, providing reliable, accessible, and sustainable services that empower our customers' growth anywhere in the world

Our VALUES

Trust

Buscamos sólidas basadas en la honestidad y en nuestro compromiso de cumplir siempre lo prometido.

Commitment

Hacemos lo que sea necesario para lograr con lo que comprometimos.

Teamwork

Nuestra fuerza radica en la colaboración interna y externa, maximizando resultados al combinar esfuerzos y experiencia. Organizamos nuestras responsabilidades en departamentos pero somos un solo equipo con un objetivo en común.

Efficiency

Ofrecemos rapidez y precisión en cada operación, optimizando recursos para facilitar el éxito de nuestros clientes.

Adaptability

Nos ajustamos a las demandas de un mercado dinámico, hacemos que de nuestro de nuestros días sean buscando mejorar continuamente.

Our trajectory

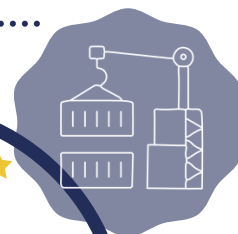

The founding of SILVERSEA. First office in Montevideo, Uruguay. The scope is Latin America.

2016

We are expanding our company. First offices in Spain whose objective is to manage and lead the company's growth and development.

2017

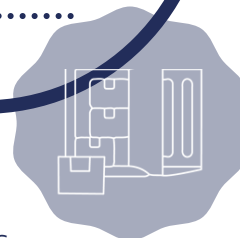

As part of the expansion plan, we have opened offices in Shanghai, China. This is a milestone, as from there we will consolidate and establish one of the major bases for the company's expansion and internationalisation.

2020

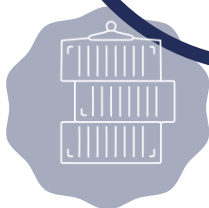

We opened offices in the USA which have become a further basis for growth. We joined WCAworld as vendors the largest network of independent Freight Forwarding Services in the world, looking to bring our containers as part of there logistics solution

2018

2021

2022

In Q1-2022, our leasing container fleet grew by 509%, in accordance with our plans. We set an objective: to grow by 100% by the end of Q2-2022

2023

We opened our office in São Paulo, Brazil – adding another key growth hub in the Latin American market, and we expanded our sales team in Argentina.

SILVERSEA, the solution for your requirements

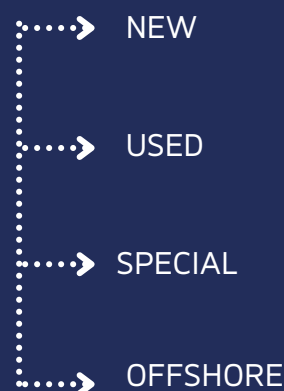

Our containers have different uses:

- Storage of merchandise.
- Construction and modification (houses, offices, locker rooms).
- Shipper Own Container (SOC).
For transportation of merchandise.

Our Containers

Our services

1

LEASING

Container leasing for short-, medium- and long-term periods.

2

PROJECTS

We create customised sourcing flows according to customer needs. Our scope covers more than 40 destinations and 20 countries.

3

SALES & BUYBACK

We sell containers and buy them back in a specific period for an agreed price.

COST REDUCTION

CONTAINER PROJECTS CAN HAVE MANY HIDDEN COSTS. SILVERSEA SHEDS LIGHT ON THESE BY PROVIDING YOU WITH A SOLUTION.

BENEFITS:

- Precise calculation of costs, comparison between SOC and COC containers.
- Immediate delivery of our certified equipment.
- Availability of special equipment.
- Depots near main cities and ports, facilitating and economising return transport.

Advantages

TURN OUR EXPERIENCE INTO YOUR ADVANTAGE

ADAPTATION

Adapted to the requirements of our customers.

FAST

We work with SILVERSEA methodology (flexibility, creativity and efficiency).

RETURN

We accept returns in many parts of the world, such as cities and remote locations, and not exclusively in ports. This generates logistical cost savings.

We keep growing

We remain committed to the growth of our team and our container fleet in order to provide greater scope.

Transport

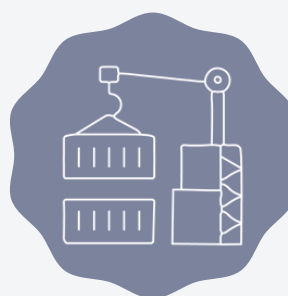

Our transport network is certified in the countries where we operate. We therefore offer the following services:

- Container co-ordination and transport to the loading site.
- Collection of containers from construction sites, ports or depots.
- Crane transport and unloading.

Depots

SILVERSEA works with over 200 depots on a global scale. We maintain close contact with our customers so that availability and accessibility are never a problem.

Our logistics centres provide:

- 1 Revalidation of the navigation plate (CSC plate valid).
- 2 Occasional or regular storage.
- 3 Repair of containers.
- 4 Painting of containers.
